# The Dental Directory

In November 2000, the GID appointed The Dental Directory as its preferred dental dealer to all members of the group. Preferred dental dealer status means that all GID members will receive a substantial benefits package from The Dental Directory. This package includes massive discounts off everyday essential products, a unique Net price list, and product audit which can save your practice up to 7% on your annual sundries, consumables and material costs - this before the unique GID discount is added.

In addition, The Dental Directory will donate 1% of each members spend back to the GID committee in order to help further the aims and objectives of the group.

For any information on the benefits of using The Dental Directory please call Gemma Osment on 07808 943635

# Dedication & Direction

Gloucestershire Independent Dentists is a group of like minded practitioners that formed in the wake of the 1992 fee cut.

Our aim, initially, was to meet regularly and discuss how best to address this problem and then to foster mutual support and advice. Most of the group had decided to reduce their N.H.S. commitment.

GID now has 200 members representing well over 60 practices within the Gloucestershire area. As well as actively developing business and practice management ideas, we organise a number of study days which are approved for C.P.D. and have been extremely popular and successful.
